

## 4th Salesforce Developer Bootcamp! Apply now and the Force will be with you! Starts in March 2021!

Don't miss out the opportunity to be trained in our **4<sup>th</sup> Salesforce Developer Bootcamp**, organized by Deloitte Alexander Competence Center in Thessaloniki, and **get hired as a Junior Developer!**

### But what is the 3rd Salesforce Developer Bootcamp?

It's a 4-week virtual programming training that will start in March 2021, and is completely **free of charge!** This is the 4<sup>th</sup> edition of the program, while the previous three led to the hiring of more than **80%** of the participants! Upon completion and based on your performance, you will have the opportunity to join us with a **full time contract** and get the official **Salesforce Developer Certification!**

### What can I do as Developer in Salesforce?

You will get the chance to meet the Salesforce CRM Cloud platform and its integrated technology stack. Either working on the back-end with APIs, the frontend with modules or with the out-of-the-box tools, the goal is the same:

to deliver personalized solutions for our customers, using state of the art technologies!

**Are you still a bit confused? Don't worry!**

You only need your passion for programming and a solid knowledge of Object Oriented Programming. The rest will be done through the Bootcamp training that will prepare you for a full stack developer role!

**What are you waiting for?**

**[Apply here](#)** to secure your place and you might be one of us.
